Product Sheet: **The NOMAD**  
Mobile. Efficient. All-Inclusive

## The NOMAD

“The mobile solution that adapts to your needs!”

J & M Security Solutions is proud to present the NOMAD, an effective and all-inclusive security solution. With its simple design and adaptability, customers can use this camera solution whenever and wherever they need it most. It was created to eliminate the hassle and costs associated with standard pole cameras!

The NOMAD takes into consideration the complications involved with most camera solutions and provides an all-in-one fix. It offers these features:

- Compatible with any existing video management system
- Works with any camera type
- Simple installation and mounts on any infrastructure
- Additional sensors can be added (gunshot detection, bio-hazard, nuclear, chemical)
- Utilizes a cellular signal (AT&T, Verizon, and Sprint) and/or Wi-Fi
- Option to use cloud service or internal server to store data

## How it Works

### 3 ~ Step Installation

The NOMAD was designed so that anybody could transport and install it, regardless of one’s technical knowledge. The result is a simple, 3-step installation process:

- 1) **Find a location.** No matter where your surveillance needs are most pressing, the NOMAD can be set anywhere. Poles, walls, or any other infrastructure—never let location hinder your options!
- 2) **Mount it.** With a variety of bracket configurations, the NOMAD can be placed on any surface or angle. We want you to have complete control over your set-up!
- 3) **Plug it in.** Because the NOMAD holds all of the components in its shell, it’s easy to get your system up and running. And for situations where power isn’t an option, ask us about our solar-powered solution!

The solution that works in any environment for any surveillance need.

*Mobile. Efficient. All-inclusive.*

# J & M SECURITY SOLUTIONS

## The NOMAD: COVERT MODEL

Enclosure	Impact and dent resistant PVC, paintable to any color
Enclosure Dimension	18" (H) x 10" (W)
Camera	Any IP PTZ or dome camera , LPR available
Storage	Additional onboard storage available (up to 1TB); Contact sales representative for more options
Power	120 VAC
Wireless	Sierra Wireless GX450 modem with built-in Wi-Fi and GPS (Verizon, AT&T, or Sprint)
Sensors	Additional sensors can be added (gunshot detection, ground radar, and IR lights)

## The NOMAD: 360° MODEL

Enclosure	Impact and dent resistant PVC, paintable to any color
Enclosure Dimension	16" (H) x 8" (W) [Enclosure]
Camera	360° Camera
Storage	Additional onboard storage available (up to 1TB); Contact sales representative for more options
Power	120 VAC
Wireless	Sierra Wireless GX450 modem with built-in Wi-Fi and GPS (Verizon, AT&T, or Sprint)
Sensors	Additional sensors can be added (gunshot detection, ground radar, and IR lights)

## The NOMAD: OVERT MODEL

Enclosure	Impact and dent resistant PVC, paintable to any color
Enclosure Dimension	16" (H) x 10" (W) [Enclosure]
Camera	Any IP PTZ or dome camera , LPR available
Storage	Additional onboard storage available (up to 1TB); Contact sales representative for more options
Power	120 VAC
Wireless	Sierra Wireless GX450 modem with built-in Wi-Fi and GPS (Verizon, AT&T, or Sprint)
Sensors	Additional sensors can be added (gunshot detection, ground radar, and IR lights)

## The NOMAD: LICENSE PLATE RECOGNITION MODEL

Enclosure	Impact and dent resistant PVC, paintable to any color
Enclosure Dimension	16" (H) x 10" (W)
Camera	Any IP PTZ or dome camera , LPR available
Storage	Additional onboard storage available (up to 1TB); Contact sales representative for more options
Power	120 VAC
Wireless	Sierra Wireless GX450 modem with built-in Wi-Fi and GPS (Verizon, AT&T, or Sprint)
Sensors	Additional sensors can be added (gunshot detection, ground radar, and IR lights)

## The NOMAD: SOLAR-POWERED OPTION

Enclosure	NEMA 4X, Aluminum, white powder coat
Enclosure Dimension	26" (H) x 16" (W) x 12" (D) [Enclosure]
Camera	Any IP PTZ or dome camera , LPR available
Power	Solar → 12—48 VDC → 120 VAC; Provides continuous power 24/7/365
